CUSTOMER CARE AND SERVICE

Always use original spare parts.

When contacting our Authorised Service Centre, ensure that you have the following data available: Model, PNC, Serial Number.

The information can be found on the rating plate.

 Warning / Caution-Safety information

 General information and tips

 Environmental information

Subject to change without notice.

1. SAFETY INFORMATION

Before beginning the installation and use of this appliance, carefully read the supplied instructions. The

manufacturer is not responsible for any injuries or damages that are the result of incorrect installation or usage. Always keep the instructions in a safe and accessible location for future reference.

- Read the supplied instructions.

1.1 Children and vulnerable people safety

WARNING!

Risk of suffocation, injury or permanent disability.

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved.
- Do not let children play with the appliance.
- Children of less than 3 years should be kept away unless continuously supervised.
- Keep all packaging away from children and dispose of it appropriately.
- Keep detergents away from children.
- Keep children and pets away from the appliance when the door is open.
- If the appliance has a child safety device, this should be activated.
- Children shall not carry out cleaning and user maintenance of the appliance without supervision.

1.2 General Safety

- Do not change the specification of this appliance.
- If the tumble dryer is put on top of a washing machine, use the stacking kit. The stacking kit, available from your authorized vendor, can be used only with the appliance specified in the instructions, supplied with the accessory. Read it carefully before installation (Refer to the Installation leaflet).

- The appliance can be installed as freestanding or below the kitchen counter with correct space (Refer to the Installation leaflet).
- Do not install the appliance behind a lockable door, a sliding door or a door with a hinge on the opposite side, that would prevent the appliance door from being fully opened.
- The ventilation opening in the base must not be covered by a carpet, mat, or any floor covering.
- **WARNING:** The appliance must not be supplied through an external switching device, such as timer, or connected to a circuit that is regularly switched on and off by a utility.
- Connect the mains plug to the mains socket only at the end of the installation process. Make sure that the mains plug is accessible after installation.
- Ensure good air ventilation in the located room to avoid the backflow of unwanted gases into the room from appliances burning gas or other fuels, including open fires.
- If the mains power supply cable is damaged, it must be replaced by the manufacturer, its Authorised Service Centre or similarly qualified persons to avoid an electrical hazard.
- Do not exceed the maximum load of 8 kg (refer to the "Programme chart" chapter).
- Do not use the appliance if items have been soiled with industrial chemicals.
- Wipe away lint or packaging debris that has accumulated around the appliance.
- Do not run the appliance without a filter. Clean the lint filter before or after each use.
- Do not dry unwashed items in the tumble dryer.
- Items that have been soiled with substances such as cooking oil, acetone, alcohol, petrol, kerosene, spot removers, turpentine, waxes and wax removers should be washed in hot water with an extra amount of detergent before being dried in the tumble dryer.

- Items such as foam rubber (latex foam), shower caps, waterproof textiles, rubber backed articles and clothes or pillows fitted with foam rubber pads should not be dried in the tumble dryer.
- Fabric softeners, or similar products, should only be used as specified by the product manufacturer's instructions.
- Remove all objects from items that could be a source of fire ignition such as lighters or matches.
- **WARNING:** Never stop a tumble dryer before the end of the drying cycle unless all items are quickly removed and spread out so that the heat is dissipated.
- Before any maintenance operation, deactivate the appliance and disconnect the mains plug from the socket.

2. SAFETY INSTRUCTIONS

2.1 Installation

- Remove all the packaging.
- Do not install or use a damaged appliance.
- Follow the installation instruction supplied with the appliance.
- Always take care when moving the appliance as it is heavy. Always use safety gloves and enclosed footwear.
- Do not install or use the appliance where the temperature can be less than 5°C or higher than 35°C.
- The floor area where the appliance is to be installed must be flat, stable, heat resistant and clean.
- Make sure that there is air circulation between the appliance and the floor.
- Always keep the appliance vertical when being moved.
- The rear surface of the appliance must be put against the wall.
- When the appliance is in its permanent position, check that it is fully level with the aid of a spirit level. If it is not, adjust the feet accordingly.

2.2 Electrical connection

WARNING!

Risk of fire and electrical shock.

- Connect the mains plug to the mains socket only at the end of the installation. Make sure that there is access to the mains plug after the installation.
- The appliance must be earthed.
- Make sure that the parameters on the rating plate are compatible with the electrical ratings of the mains power supply.
- Always use a correctly installed shockproof socket.
- Do not use multi-plug adapters and extension cables.
- Do not pull the mains cable to disconnect the appliance. Always pull the mains plug.
- Do not touch the mains cable or the mains plug with wet hands.
- This appliance complies with the E.E.C. Directives.

2.3 Use

WARNING!

Risk of injury, electrical shock, fire, burns or damage to the appliance.

- This appliance is for household use only.
- Do not dry damaged (torn, frayed) items that contain padding or fillings.
- Only dry fabrics which are applicable to dry in the tumble dryer. Follow the instructions on the fabric label.
- If you have washed your laundry with a stain remover start an extra rinse cycle before you start the dryer.
- Do not drink or prepare food with the condensed water/distilled water. It can cause health problems to people and pets.
- Do not sit or stand on the open door.
- Do not dry dripping wet clothes in the tumble dryer.

2.4 Care and cleaning

WARNING!

Risk of injury or damage to the appliance.

- Do not use water spray and steam to clean the appliance.
- Clean the appliance with a moist soft cloth. Only use neutral detergents. Do not use any abrasive products,

abrasive cleaning pads, solvents or metal objects.

- To prevent damage to the cooling system be careful when you clean the appliance.

2.5 Compressor

WARNING!

Risk of damage to the appliance.

- The compressor and its system in the tumble dryer is filled with the special agent which is free from fluoro-chloro-hydrocarbons. This system must stay tight. The damage of the system can cause a leakage.

2.6 Disposal

WARNING!

Risk of injury or suffocation.

- Disconnect the appliance from the mains electrical and water supplies.
- Cut off the mains electrical cable close to the appliance and dispose of it.
- Remove the door catch to prevent children or pets from becoming trapped in the drum.
- Dispose of the appliance in accordance with local requirements for the disposal of Waste Electrical and Electronic Equipment (WEEE).

3. PRODUCT DESCRIPTION

- 1** Water container
- 2** Control panel
- 3** Appliance door
- 4** Filter
- 5** Rating plate

- 6** Airflow slots
- 7** Condenser lid
- 8** Condenser cover
- 9** Adjustable feet

i For ease of loading laundry or ease of installation the door is reversible. (see separate leaflet).

4. CONTROL PANEL

- 1** Program dial
- 2** Display
- 3** Start/Pause button
- 4** Options

- 5** On/Off button
- 6** Programs

4.1 Display

Symbol on the display	Symbol description
80 kg MAX	laundry maximum load
	delay start option on
30' - 20h	delay start selection (30min-20h)
1:50	cycle time indication
	buzzer off

Symbol on the display	Symbol description
	child lock on
	laundry dryness: iron dry, cupboard dry, cupboard dry +, extra dry
	indicator: <i>drain the water container</i>
	indicator: <i>clean filter</i>
	indicator: <i>do the check of the heat exchanger</i>
	time dry option on
	time programme selection (10min-2h)
	indicator: <i>drying phase</i>
	indicator: <i>crease guard phase</i>
	indicator: <i>cooling phase</i>

5. PROGRAMME

Programme	Load ¹⁾	Properties / Fabric mark
 ²⁾ Cottons	8 kg	Cotton fabrics. / 
Synthetics	3,5 kg	Synthetic and mixed fabrics. / 
Mixed	3 kg	Cotton and synthetic fabrics. / 
Wool	1 kg	Woollen fabrics. Gentle drying of washable woollens. Remove items immediately when the programme is completed.
Silk	1 kg	Silk suitable for tumble drying. / 
Easy Iron	1 kg (or 5 shirts)	Easy care fabrics for which a minimum of ironing is necessary. The drying results can be different from one type of fabric to another. Shake the items before putting them in the appliance. When the programme has ended, immediately remove the items and put them on a hanger. / 

Programme	Load 1)	Properties / Fabric mark
Bed Linen	3 kg	Bed linen such as single and double sheets, pillowcases, duvet cover. / 
Active Wear	2 kg	Outdoor clothing, technical, sports and pile fabrics, waterproof and breathable jackets, shell jackets with a removable fleece or inner insulation. / 
Duvet	3 kg	Single or double duvets and pillows (with feather, down or synthetic fillings). / 
Sports	2 kg	Sportswear, thin and light fabrics, microfiber, polyester. / 

1) The maximum weight refers to dry items.

2) The  Cottons programme in combination with the *cupboard dry*  Dryness Level selection is the "Standard cotton programme". It is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for drying wet cotton laundry.

5.1 Programs and options selection

Programs 1)	Options			
	Dryness Level	Anti-crease	Refresh	Time Dry
 Cottons	■	■	■	■
Synthetics	■	■	■	■
Mixed		■	■	■
Wool				■ 2)
Silk		■		
Easy Iron		■		
Bed Linen		■		
Active Wear				
Duvet				
Sports		■		

1) Together with the program you can set 1 or more options.

2) See chapter OPTIONS: Time Dry on Wool programme

5.2 Consumption data

Program	Spun at / residual humidity	Drying time	Energy consumption
Cottons 8 kg			
 <i>cupboard dry</i>	1400 rpm / 50%	147 min	2,03 kWh
	1000 rpm / 60%	179 min	2,60 kWh
 <i>iron dry</i>	1400 rpm / 50%	113 min	1,47 kWh
	1000 rpm / 60%	135 min	1,79 kWh
Synthetics 3,5 kg			
 <i>cupboard dry</i>	1200 rpm / 40%	58 min	0,71 kWh
	800 rpm / 50%	72 min	0,90 kWh

6. OPTIONS

6.1 Dryness Level

This option helps to achieve requested laundry dryness. Possible selections:

 =  - ready to iron - **iron dry** level.

 =  - ready to store - **cupboard dry** level - default selection which is related to the programme.

⁺ =  - ready to store - **cupboard dry** + level.

 =  - ready to store - **extra dry** level.

6.2 Anti-crease

Extends up to 120 minutes the anti-crease phase (30 minutes) at the end of the drying cycle. After drying phase drum rotates from time to time to prevent creases. Laundry can be removed during the anti-crease phase.

6.3 Refresh

To refresh clothes that were in storage. Maximal load cannot exceed 1 kg.

6.4 Time Dry

For cottons, synthetics and mixed. Lets the user to set drying time from minimum 10 min to maximum of 2 hours (in 10 min steps). When this option is maximum, load indicator disappears.

6.5 Time Dry on Wool program

Option applicable to Wool program to adjust final dryness level to more dry or less dry.

6.6 Delay Start

 Lets to delay the start of a drying program from minimum of 30 minutes to maximum of 20 hours.

1. Set the drying program and options.
2. Touch Delay Start button again and again.

Time of delay is on the display (e.g. **12 h** if the program has to start after 12 hours.)

3. To activate Delay Start option, touch the Start/Pause button.

Time to start decreases on the display.

6.7 Buzzer

The sound is heard at the:

- cycle end
- start and end of crease guard phase

The buzzer option is by default always on. You can use this option to activate or deactivate the sound.

7. BEFORE FIRST USE

Rear drum packaging is removed automatically when dryer is activated for the first time. Possible to hear some noise.

Before you use the appliance for the first time:

- Clean the tumble dryer drum with a moist cloth.
- Start a short programme (e.g. 30 minutes) with moist laundry.

At the beginning of the drying cycle (first 3-5 min) there could be a slightly higher sound level. This is due to the compressor starting up. This is normal for compressor powered appliances such as refrigerators and freezers.

8. DAILY USE

8.1 Preparing the laundry

- Close the zips.
- Close the fasteners of duvet covers.
- Do not dry ties or ribbons loose (e.g. apron ribbons). Tie them before you start a programme.
- Remove all items from pockets.
- Turn items with internal layer made of cotton inside out. Cotton layer must be faced outward.
- Always set the programme suitable for the type of laundry.
- Do not put light and dark colours together.
- Use suitable programme for cottons, jersey and knitwear to reduce shrinkage.
- Do not exceed the maximum load stated in programmes chapter or shown on the display.
- Dry only the laundry that is suitable for tumble drying. Refer to the fabric label on the items.
- Do not dry large and small items together. Small items can be trapped inside the large items and remain wet.

Fabric label	Description
	Laundry is suitable for tumble drying.
	Laundry is suitable for tumble drying at higher temperatures.
	Laundry is suitable for tumble drying at low temperatures only.
	Laundry is not suitable for tumble drying.

8.2 Loading the laundry

CAUTION!

Ensure the laundry is not trapped between the appliance door and rubber seal.

1. Pull open the appliance door.
2. Load the laundry one item at a time.
3. Close the appliance door.

8.3 Turning on the appliance

To turn on the appliance:

Push the On/Off button.

If the appliance is on, some indicators appear on the display.

8.4 Setting a program

Use the program dial to set the program. The possible time to complete the program comes into the view on the display.

The drying time you see is related to the load of 5 kg for cotton program. For the other programs the drying time is related to the recommended loads. The drying time of the cotton program with the load more than 5 kg is longer.

8.5 Options

Together with the program you can set 1 or more special options.

To activate or deactivate an option touch the relevant button or 2 buttons combination.

When the option is activated, the LED above the button or symbol illuminates on the display.

8.6 Child lock option

The child lock can be set to prevent children from playing with the appliance. The child lock option locks all touch buttons and the program dial (this option does not lock the **On/Off** button).

You can activate the child lock option:

- before you touch the **Start/Pause** button - the appliance cannot start
- after you touch the **Start/Pause** button - programs and option selection is unavailable.

Child lock option activation:

1. Turn the dryer on.
2. Select 1 of the available programs.
3. Touch and hold down 2 buttons at the same time.

The symbol  appears on the display.

4. To deactivate the child lock, touch the above buttons again until the symbol disappears.

8.7 Starting a program

To start the program:

Touch the **Start/Pause** button.
The appliance starts and the LED above the button stops flashing and stays on.

8.8 Program change

To change a program:

1. Push the On/Off button to turn the appliance off.
2. Push the On/Off button again to turn on the appliance.
3. Set a new program.

8.9 Program end

-  Clean the filter and drain the water container after each drying cycle. (See chapter CARE AND CLEANING.)

If the drying cycle is finished, the symbol  appears on the display. If the Buzzer option is activated, the acoustic signal sounds intermittently for 1 minute.

-  If you do not turn off the appliance, the anti-crease phase starts (not active with all programs). Flashing  symbol signals the execution of the anticrease phase. Laundry can be removed during this phase.

To remove the laundry:

1. Push the On/Off button for 2 seconds to turn the appliance off.
2. Open the appliance door.
3. Remove the laundry.
4. Close the appliance door.

9. HINTS AND TIPS

9.1 Ecological hints

- Spin the laundry well before drying.
- Do not exceed the load sizes which are specified in the programs chapter.
- Clean the filter after each drying cycle.
- Do not use fabric softener to wash and then dry. In the tumble dryer laundry becomes soft automatically.
- Use distilled water like that used for steam ironing. If it is necessary, clean

the distilled water before (e.g. with a coffee filter) to remove any particles.

- Always keep the airflow slots at the bottom of the appliance clear.
- Make sure there is good airflow where the appliance is to be installed.

9.2 Adjustment of default dryness level

To change the default dryness level:

1. Turn the appliance on.

2. Select 1 of the available programs.
3. Touch and hold down the **Dryness Level** and **Refresh** buttons at the same time.

One of the symbols appears on the display:

 - Maximum dryness

 - Extra dryness

 - Standard dryness

4. Touch the **Start/Pause** button repeatedly until you reach the desired dryness level.

Dryness level	Display symbol
Maximum dryness	 
Extra dryness	 
Standard dryness	 

5. To memorise the setting touch and hold down the **Dryness Level** and **Refresh** buttons at the same time for approximately 2 seconds.

10. CARE AND CLEANING

10.1 Cleaning the filter

At the end of each cycle the  *Filter* symbol comes on the display and you must clean the filter.

 The filter collects the fluff during the drying cycle.

1. Open the door. Pull the filter up.

2. Push the hook to open the filter.

9.3 Deactivating the tank indicator

The water container indicator is activated by default. It illuminates at the end of the drying cycle or during the cycle if the water reservoir is full. If the draining kit is installed the water container is drained automatically and the indicator can be deactivated.

To deactivate the indicator:

1. Turn the appliance on.
2. Select 1 of the available programs.
3. Touch and hold down **Refresh** and **Time Dry** buttons at the same time.

One of 2 configurations is possible:

- the Tank indicator:  is on if the symbol  appears - the water container indicator is permanently **activated**
- the Tank indicator:  is off if the symbol  appears - the water container indicator is permanently **deactivated**

3. Use a moist hand to clean both parts of the filter.

4. If necessary, clean the filter with a vacuum cleaner. Close the filter.
5. If necessary, remove fluff from the filter socket and gasket. You can use a vacuum cleaner. Place the filter back inside the filter socket.

10.2 Emptying the water container

Empty the condensed water container after each drying cycle.

If the condensed water container is full, the programme stops automatically. The

 Tank symbol comes on the display and you must empty the water container.

To empty the water container:

1. Pull the water container out keeping it in a horizontal position.

2. Pull the plastic connection out and drain the water into a basin or equivalent receptacle.

3. Push the plastic connection back in and place the water container back into position.
4. To continue the programme press the Start/Pause button.

10.3 Cleaning the condenser

If the symbol  Condenser flashes on the display, inspect the condenser and its compartment. If it is dirty, clean it. Do the check not less than once a 6 months.

WARNING!

Do not touch the metal surface with bare hands. Risk of injury. Wear protective gloves. Clean carefully to avoid damaging the metal surface.

To inspect:

1. Open the door. Pull the filter up.

2. Open the condenser cover.

3. Turn the lever to unlock the condenser lid.

4. Lower the condenser lid.

5. If necessary, remove the fluff from the condenser and its compartment. You can use a wet cloth and/or a vacuum cleaner with a brush attachment.

6. Close the condenser lid.
7. Turn the lever until it clicks into position.
8. Put the filter back.

10.4 Cleaning the drum

WARNING!

Disconnect the appliance before you clean it.

Use a standard neutral soap detergent to clean the inner surface of the drum and drum lifters. Dry the cleaned surfaces with a soft cloth.

CAUTION!

Do not use abrasive materials or steel wool to clean the drum.

10.5 Cleaning the control panel and housing

Use a standard neutral soap detergent to clean the control panel and housing.

Use a moist cloth to clean. Dry the cleaned surfaces with a soft cloth.

CAUTION!

Do not use furniture cleaning agents or cleaning agents which can cause corrosion.

10.6 Cleaning the airflow slots

Use a vacuum cleaner to remove fluff from the airflow slots.

11. TROUBLESHOOTING

Problem ¹⁾	Possible cause	Remedy
The tumble dryer does not operate.	The tumble dryer is not connected to the mains supply.	Connect to the mains socket. Check fuse in fuse box (domestic installation).
	The door is open.	Close the door.
	The On/Off button was not pushed.	Push the On/Off button.
	The Start/Pause button was not touched.	Touch the Start/Pause button.
Unsatisfactory drying result.	The appliance is in standby mode.	Push the On/Off button.
	Incorrect program selection.	Select a suitable program. 2)
	The filter is clogged.	Clean the filter. 3)
	Dryness Level option was set to  iron dry. ⁴⁾	Change Dryness Level option to higher level.
	The load was too large.	Do not exceed the maximum load size.
	The airflow slots are clogged.	Clean the airflow slots at the bottom of the appliance.
	Dirt on the humidity sensor in the drum.	Clean the front surface of the drum.
The loading door does not close	Dryness level not set to desired level.	Adjust the dryness level. 5)
	The condenser is clogged.	Clean the condenser. 3)
	The filter is not locked into position.	Put the filter in the correct position.
Not possible to change the program or option.	Laundry is trapped between the door and the seal.	Remove trapped items and close the door.
	After cycle start it is not possible to change the program or option.	Turn the tumble dryer off and on. Change the program or option as required.
Not possible to select an option. Acoustic signal is emitted.	The option you tried to select is not available for the selected program.	Turn the tumble dryer off and on. Change the program or option as required.

Problem 1)	Possible cause	Remedy
Unexpected duration time on the display.	The drying duration is calculated according to load size and dampness.	This is automated — the appliance is working correctly.
Program inactive.	The water container is full.	Drain the water container, push the Start/Pause button. ³⁾
Drying cycle too short.	Load size is small.	Select time program. The time value must be related to the load. To dry 1 item or a small amount of laundry we recommend short drying times.
	The laundry is too dry.	Select time program or higher dryness level (e.g.  <i>extra dry</i>)
Drying cycle too long ⁶⁾	The filter is clogged.	Clean the filter.
	The load is too large.	Do not exceed the maximum load size.
	The laundry was not spun sufficiently.	Spin the laundry well.
	Too low or too high room temperature - this is not the appliance malfunction.	Ensure a room temperature higher than +5°C and lower than +35°C. Optimal room temperature to achieve best drying results is between 19°-24°C.

¹⁾ If there is an error message on the display (e.g. **E51**): Turn the tumble dryer off and on. Select a new program. Push the Start/Pause button. If the appliance does not operate contact the service centre and provide the error code.

²⁾ Follow the program description — see PROGRAMS chapter

³⁾ See chapter CARE AND CLEANING

⁴⁾ Only dryers with Dryness Level option

⁵⁾ See HINTS AND TIPS chapter

⁶⁾ Note: After a maximum of 5 hours the drying cycle ends automatically.

12. TECHNICAL DATA

Height x Width x Depth	850 x 600 x 600 mm (maximal 665 mm)
Max. depth with the appliance door open	1100 mm
Max. width with the appliance door open	950 mm
Adjustable height	850 mm (+ 15 mm - feet regulation)
Drum volume	118 l

Maximum load volume	8 kg
Voltage	220-240 V
Frequency	50 Hz
Total power	900 W
Energy efficiency class	A+
Energy consumption ¹⁾	1,90 kWh
Annual energy consumption ²⁾	309 kWh
Left—on mode power absorption	0,50 W
Off mode power absorption	0,50 W
Type of use	Household
Permitted ambient temperature	+ 5°C to + 35°C
Level of protection against ingress of solid particles and moisture ensured by the protective cover, except where the low voltage equipment has no protection against moisture	IPX4
This product contains fluorinated greenhouse gases, hermetically sealed	
Gas designation	R134a
Weight	0,300 kg
Global-warming potential (GWP)	1430

¹⁾ With reference to EN 61121. 8kg of cotton centrifuged at 1000 rpm.

²⁾ Energy consumption per year in kWh, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used (REGULATION (EU) No 392/2012).

13. ACCESSORIES

13.1 Stacking kit

Accessory name: SKP11, STA9

Available from your authorised vendor.

Stacking kit can be used only between washing machines and tumble dryers specified in the leaflet. See the leaflet attached.

Read carefully the instructions supplied with the accessory.

13.2 Draining kit

Accessory name: DK11.

Available from your authorised vendor
(can be attached to some types of
tumble dryer)

For thorough draining of the condensed water into a basin, siphon, gully, etc. After installation, the water container is drained automatically. The water container must stay in the appliance.

The installed hose must be minimum 50 cm to maximum 100 cm from floor level. The hose cannot be in a loop. Decrease the length of the hose if necessary.

Read carefully the instructions supplied with the accessory.

13.3 Pedestal with drawer

Accessory name: PDSTP10, E6WHPED2.

Available from your authorised vendor.

For increasing the height of the appliance in order to ease loading and unloading of laundry.

The drawer can be used for laundry storage e.g. : towels, cleaning products etc.

Read carefully the instructions supplied with the accessory.

14. ELECTROLUX / AEG MAJOR APPLIANCES - WARRANTY CONDITIONS

For domestic use only.

Not for commercial or industrial use.

Any alteration or modification of the equipment voids the warranty.

Failure to use a certified electrician or Electrolux authorised service agent or genuine parts for installation or service voids the warranty.

1. Electrolux / AEG warrants the equipment against defective material or faulty manufacture, provided it is used for domestic purposes only, for a period of 36 (thirty six) months, from the date of purchase by the original retail purchaser. This warranty only applies to Electrolux and AEG large appliances.
2.
 - a. In the first 6 (six) months from date of purchase, for valid warranty claims, collection, return and installation (Built-in and gas appliances) of the appliance will be free of charge within South Africa if installed by an authorized Electrolux service agent.
 - b. For the remainder of the warranty period where the repaired appliance is used or installed more than 50 kilometres from the nearest Electrolux service agent or elsewhere in South Africa, travel costs to the place of use or installation shall be for the account of the purchaser.
3. This warranty is given on condition that only labour, parts and accessories supplied by authorised agents are at all times used in connection with the appliance, including the installation thereof, and that an authorised Electrolux service agent installs and/or services the appliance.
4. Electrolux shall not be responsible for damage of any kind resulting from electricity fluctuations, faults in the building wiring, faulty installations, and improper use of controls or failure to use the appliance in accordance with the operating instructions and/or general misuse and/or abuse, or if not used for domestic purposes only, or for damage caused by a superior force (**vis maior**). Any repair or tampering by an unauthorised person or attempt to repair or tamper with the equipment, or use of parts not supplied by authorised agents, or alterations or modification to the equipment, shall render the warranty null and void.
5. After the first 6 (six) months from the date of purchase, this warranty does not apply to light bulbs, loose glass, glass oven doors and enamelled surfaces, filters and other parts subject to wear and tear or discolouring, as well as damage caused by abrasive and highly concentrated cleaners and/or cleaning materials or cleaners prohibited by the user manual.
6. Electrolux shall not be responsible in terms of this warranty for the replacement or repair of any part of the equipment which may have been damaged in transit if delivery is undertaken by any party other than Electrolux or an authorised agent.
7. All gas appliances are to be installed by a gas installer, registered with SAQCC GAS. Electrical appliances are to be installed by a qualified electrician who is an authorised service agent or assisted by an authorised service agent from who proof of installation will be required.
8. Repairs carried out under warranty have a guarantee period of 3 (three) months on the parts and labour supplied to repair the unit and does not extend the warranty nor does it start a new warranty. Parts removed during guarantee repairs become the property of Electrolux.
9. After expiry of 6 (six) months from the date of purchase the warranty shall be available only to the original retail purchaser of Electrolux domestic

appliances from an authorised Electrolux Dealer or Distributor and only where the appliance has been retained for use in the Republic of South Africa.

10. Failure to produce documentary proof of the date of original acquisition by the original purchaser to Electrolux or an authorised service agent, will result in normal charges being levied for travel costs, the work carried out and the parts supplied, unless a production date can be proved to be within the 6 (six)

months preceding the warranty claim.

11. After 6 (six) months from the date of purchase of the appliance the liability of Electrolux under this warranty is limited to the replacement and/or repair of the defective parts within the warranty period and does not extend to the installation or removal of the appliance.
